

Crusade (Starfire)

Spacers call the warp point Charons Ferry. No star ship has ever entered it and returned since a vengeful Orion task force pursued a doomed Terran colonization fleet into it in 2206. Almost a century has passed. The fiery hatreds of a quarter-century of warfare between the Terran Federation and the Zheerlikouvalkhannaieeee, the cat-like species humans called the Orions, have eased at least a little. The Grand Alliance forged by the need to fight side-by-side against the genocidal Rigelians remains, but there are those on either side who continue to hate, continue to distrust. Now the strength of that war-forged alliance is about to be tested. For Charons Ferry is about to give up the secret of its dead. A ship has emerged from the deadly warp point at last. A ship which responds to the challenge of an Orion star ship using ancient human communications codes...then opens fire. The holocaust of interstellar warfare has been ignited anew, in a bloody crusade to free Holy Mother Terra.
