

Summary: Defying The Market - Stephen Leeb and Donna Leeb: Profiting in the Turbulent Post-Technology Market Boom

Complete summary of Stephen Leeb and Donna Leeb's book: Defying the Market: Profiting in the Turbulent Post-Technology Market Boom. This summary of the ideas from Stephen Leeb and Donna Leeb's book Defying the Market shows how technology is experiencing a slowing down of pace and progress. In their book, the authors explain how this slowdown, combined with other factors, will lead to inflation once again becoming a major factor in the global economy. For this reason, any investment strategy formulated for the next 10 to 15 years should be tailored so as to benefit from the effects of this inflation. By reading this summary, you will learn the four key elements that will lead to a successful investment portfolio for the upcoming decade. Added-value of this summary: Save time Understand key concepts Expand your investment knowledge To learn more, read Defying the Market and discover how you can take advantage of the technological slowdown and upcoming inflation to make profitable investments.
