

## Northern Nurse (Regional Interest)

Every word of it I enjoyed, and I don't think that there is a single change to be made in it, wrote legendary editor Maxwell Perkins when he read the manuscript of Northern Nurse in 1941. The public agreed, keeping it on the New York Times bestseller list for 17 weeks. Now a new edition of this classic is available from The Countryman Press. By turns lyrical, comic, and genuinely moving, Northern Nurse tells the story of Australian nurse Kate Austen and her adventures at Labrador's Grenfell Mission. Written by her husband, Elliott Merrick, it celebrates not only the unspoiled realm of the North, but also a woman's self-fulfillment there.

**Career Vacancies - Helping Hand** talented team of nurses to develop practice on a general medical ward. to study and work in Australia she has maintained her interest in practice development.
