

## THE HYMNAL of the Protestant Episcopal Church in the United States of America 1940 [With Supplemental Liturgical Index and Collection of Service Music 1961]

During the past 25 years other Christian communions in the revision of their hymnals have included some new hymns of distinguished excellence. These and others were studied with the result that our Hymnal has been enriched by the best hymns now in us in the English speaking world and by a number of new translations of hymns in foreign languages, including some of the great German chorales. Special efforts were made to secure new hymns suitable for children, and hymns which voice the social aspirations of our day. Some of the latter group express the hope of a new world founded upon justice and expressive of international brotherhood. The ecumenical movement, with its hope of Christian unity, has also received fitting recognition in the Hymnal. It is hoped that every parish will gradually add new hymns to enrich its worship and to deepen and ennoble its sympathies. It may be safely predicted that if this is done many of the new hymns will speedily become known and loved throughout the Church. Some hymns can be properly used only at certain seasons of the Christian year or on specific occasions. Only such hymns are printed under special heading. The music of the hymns has been prepared in response to a mandate of the Church for a book suitable for congregational singing. We have also included 48 new tunes by American composers from every part of the country and from Canada. The rich heritage of Christian hymnody in this book is of a like catholicity. Both the choice and the presentation of the music of the hymns have been planned to bring a greater sense of reality into our praise. We must make the words the utterance of our own souls; the music the expression of our own personal worship, our own joy or sorrow or brave determination. Only so can we rightly use this richly varied treasure bequeathed us from every age of the Church.
