

Teach Yourself VISUALLY Mac OS X (Visual Read Less, Learn More)

* Full-color, step-by-step screen shots show users how to make the most of Mac OS X, the super-modern operating system that combines the power and stability of UNIX with the simplicity and elegance that Apple is known for

* Explains how to accomplish everyday tasks and create movies, manage music files, and work on digital photography projects

* Includes useful information regarding the 10.2 update

* Discusses running applications, printing, networking, multimedia, security and available utilities

* Features self-contained two-page lessons in full color, Teach Yourself sidebars, and minimal text

Combining clear, step-by-step screen shots with minimal text, our five Visual series are the ultimate resources for visual learners, who represent up to forty percent of your customers. Teach Yourself VISUALLY guides help computer users get up to speed on a wide range of office productivity, graphics, and Web design software. Offering significantly more coverage than our Simplified series, these books provide real-world tips and illustrate basic and intermediate level techniques using crisp full-color screen shots. Visual Blueprints apply the proven Visual formula to professional-level programming, Web development, and networking tips. Each two-color guide includes self-contained two-page lessons, covering more than 100 key topics, accompanied by practical tips and code samples as well as examples and bonus software on CD-ROM.
