

The Drama Teachers Survival Guide #2: Activities, exercises, and techniques for the theatre classroom

Drama teachers everywhere enjoyed Ms. Johnsons first survival kit so much that she wrote another one! While the first book focuses on everything about a complete stage production, this one covers every aspect of classroom theatre arts. Students will learn group activities, improvisation, technical theatre, choral reading, mime, stage fighting and more. The book includes a step-by-step 10-day assignment using monologues for character development and a unit that teaches students how to write their own show. Examples, illustrations and photos all help ensure that the reader understands how to use these proven ideas. Reproducible forms, tests, handouts and a list of additional resources also add value to this survival kit. Both beginning and seasoned drama directors will find this book to be an invaluable aid. As with the original book, it will banish your stress and guarantee your success!
