

TechTV Leo Laportes 2004 Technology Almanac: Barnes and Noble

In this volume, Leo Laporte and his co-hosts at The Screen Savers TV show provide a year's worth of anecdotes, tips, factoids, and musings about the machines at the center of our lives. A page is devoted to each day of the year, and each page includes several elements: typically a single-topic essay that takes up most of the page (on subjects as varied as ergonomics, Easter eggs in popular programs, processor overclocking, and discount-travel Web sites), and hints, tips, references to worthwhile software, and goofy trivia. As you make your way through the year, you'll discover how to keep PC hassles to a minimum while learning something about technology and its impact on society—all delivered with the wit and wisdom of your favorite stars from The Screen Savers!
