

## Elder Law Practice in Tennessee

Elder Law Practice in Tennessee covers all aspects of elder law as it currently exists in Tennessee. This one volume treatise addresses senior citizens and the law relevant to the legal practitioner and others providing allied services. Using this book as a guide, you can feel confident when: planning for medical, financial, and quality of life decisions, setting up a conservatorship, making ethical considerations in elder law practice, choosing housing options for an elderly client, and planning for long-term care. The appendices include an Elder Law Planning Questionnaire for client use, a table of current public benefits figures, life estate and life expectancy tables, as well as a resource directory.
