

The Diaries of Frank Hurley 1912-1941 (Anthem Studies in Travel)

This is the first illustrated edition of the diaries kept by Australian-born photographer and film maker Frank Hurley about his work on the Mawson and Shackleton Antarctic Expeditions, his two expeditions to Papua in the 1920s, and his experiences during the First and Second World Wars. While Hurley is best known today as a photographer and film maker, there is another source, so far little known to the public, which also gives us a startling sense of the presence of the past his voluminous manuscript diaries, which have survived years of world travel and are now carefully preserved in the archives of the National Library of Australia in Canberra and the Mitchell Library in Sydney. This illustrated edition of his diaries presents Frank Hurley in his own words, explores his testimony to these significant events, and reviews the part he played in imagining them for an international public.
