

The Diary of a Madman and Other Stories

Nikolai Gogol, an early 19th century Ukrainian-born Russian novelist, humorist, and dramatist, created some of the most important works of world literature and is considered the father of modern Russian realism. Gogol satirized the corrupt bureaucracy of the Russian Empire through the scrupulous and scathing realism of his writing, which would ultimately lead to his exile. Among some of his finest works are his short stories. Together in this collection are collected some of the best of these stories, they include the following: The Diary of a Madman, The Viy, The Mysterious Portrait, The Fair of Sorotchinetz, An Evening in May, Mid-Summer Evening, and The Carriage (The Calash).
