

## The European Challenges Post-1992: Shaping Factors, Shaping Actors

What major long-term factors will shape the European Community post-1992? Who are the central actors, how will they exert influence on Europe's future, and what are their expectations and intentions? In seeking to answer these questions, *The European Challenges Post - 1992* offers a multidisciplinary, qualitative approach, throwing new light on the aspirations and preoccupations aroused by the promise of the Community. Centreing on socio-political and cultural concerns, and their interplay with economic phenomena, this important book combines expert opinion from twelve major European research institutes - each of which provides an analysis of the major factors shaping the future of their own country - with the views of leading industrialists and business leaders. The authors bring together these different views and interpretations to offer a comprehensive assessment of the Community's future. *The European Challenge Post - 1992* includes contributions by the Institute of International Economics and Management (Copenhagen), Commissariat General du Plan (Paris), Kiel Institute of World Economics (Kiel), foundation of Economic and Industrial Research (Athens), Economic and Social Research Institute (Dublin), Centro Studi investimenti sociali (Rome), Institut Universitaire International (Luxembourg), Scientific Council for Government Policy (The Hague), Instituto de Prospectiva (Lisbon), Fundacion Empresa Publica (Madrid) and the Policy Studies Institute (London).
