

The Island

The worst has come and one man must rise to lead the fight against it. . . He thought he'd seen the worst . . . No one knew about the Strangers from beyond Noreela, and it was the Cores job to make sure it stayed that way. Kel Boon was once an agent of the lands most secret organization, tracking, observing, and eliminating the Strangers as part of an elite Core team. But then one horrifying encounter left his superior officer and lover dead, along with many innocents. And Kel has been running ever since. But the worst was still to come. . . Forsaking magic, living as a simple wood-carver, Kel came to the fishing village of Pavmouth Breaks to hide. But when a mysterious island appears out to sea during a cataclysmic storm, sending tidal waves to smash the village, his Core training tells him to expect the worst. How can he warn the surviving villagers especially the beautiful young witch Nami that the visitors sailing in from the island may not be the peace-loving pilgrims they claim to be? That this might be the invasion the Core has feared all along . . . and that he, Kel Boon, may be Noreela's last chance? From the Trade Paperback edition.
