

THE MYSTERY ON THE MINIATURE RAILWAY: STEAM TRAIN DETECTIVE THRILLER

When an eminent nuclear scientist goes missing en route to a nuclear power station it is a matter of national security. He is carrying top-secret plans for a nuclear processing plant to be built to store all the countrys nuclear waste in a vast underground bunker at Downsend. This would, of course, involve a lot of disruption and upheaval for those already using the marsh. When the train arrives at Downsend the professor is missing. So what role has the miniature railway played in the Professors disappearance?
