

The Ringworld Engineers (Ringworld series Book 2)

Over twenty years after returning to Earth from the Ringworld, Louis Wu is kidnapped, along with a warrior kzin named Chmeee, by a Piersons puppeteer, a brilliant 2-headed alien who calls himself the Hindmost. The puppeteer hopes to regain status with his fellow citizens by traveling to the Ringworld to bring back treasures. Upon reaching the vast and mysterious Ringworld, Louis and his companions encounter many surprises, including that the Ringworld is unstable. Its billions of inhabitants will die within months if Louis and his companions do not find a way to locate the Control Center of its mysterious builders, the Ringworld engineers, and fix the problem. THE RINGWORLD ENGINEERS has all the inventiveness, convincing detail and narrative vivacity that have come to be associated with the works of Larry Niven. - Poul Anderson Fans of the original novel will not be disappointed, and newcomers will have no trouble following the plot, in this adventurous exploration of a mind-boggling landscape. Publishers Weekly Another fine masterpiece from a master of science fiction...The Ringworld itself is a dazzling notion, carrying the future evolution of technology about as far as possible. - Jack Williamson, author of THE HUMANOIDS and DARKER THAN YOU THINK Great storytelling is alive in science fiction because of Larry Niven. - Orson Scott Card, author of ENDERS GAME Larry Niven is one of the giants of modern science fiction. - Mike Resnick, author of SANTIAGO and KIRINYAGA about the author: Born April 30, 1938 in Los Angeles, California. Attended California Institute of Technology; flunked out after discovering a book store jammed with used science fiction magazines. Graduated Washburn University, Kansas, June 1962: BA in Mathematics with a Minor in Psychology, and later received an honorary doctorate in Letters from

Washburn. Interests: Science fiction conventions, role playing games, AAAS meetings and other gatherings of people at the cutting edges of science. Comics. Filk singing. Yoga and other approaches to longevity. Moving mankind into space by any means, but particularly by making space endeavors attractive to commercial interests. Several times we've hosted The Citizens Advisory Council for a National Space Policy. I grew up with dogs. I live with a cat, and borrow dogs to hike with. I have passing acquaintance with raccoons and ferrets. Associating with nonhumans has certainly gained me insight into alien intelligences. In 2015, Larry Niven received the Grand Master Award, given by The Science Fiction & Fantasy Writers of America.
