Shes been six different people in six different places: Madeline in Ohio, Isabelle in Missouri, Olivia in Kentucky . . . But now that shes been transplanted to rural Louisiana, she has decided that this fake identity will be her last. Witness Protection has taken nearly everything from her. But for now, theyve given her a new name, Megan Rose Jones, and a horrible hair color. For the past eight months, Meg has begged her father to answer one question: What on earth did he do-or see-that landed them in this god-awful mess? Meg has just about had it with all of the Suits rules-and her dads silence. If he wont help, its time she got some answers for herself. But Meg isnt counting on Ethan Landry, an adorable Louisiana farm boy whos too smart for his own good. He knows Meg is hiding something big. And it just might get both of them killed. As they embark on a perilous journey to free her family once and for all, Meg discovers that theres only one rule that really matters survival.
