

THE PROBLEMS OF PHILOSOPHY; & MYSTICISM AND LOGIC AND OTHER ESSAYS (Timeless Wisdom Collection Book 501)

This volume contains two of the most important works of the prolific philosopher Bertrand Russell, a man who reached almost 100 years of age, and that influenced the views and thought of the 20th century like few others. Considered one of the founders of analytic philosophy, he is also widely held to be one of the 20th century's premier logicians, and one of the most important philosophers of the past two hundred years. Extremely prolific and influential, he was awarded the Nobel prize for literature in 1950. Not only was he a leading philosopher with a long and distinguished career, but during his life he was a prominent figure in various political and social causes, such as nuclear disarmament. **THE PROBLEMS OF PHILOSOPHY**, was an early attempt to create a brief and accessible guide to the problems of philosophy, analyzing the history of philosophy and philosophers, from Plato to Kant to Descartes and Leibniz. Meanwhile, **MYSTICISM AND LOGIC AND OTHER ESSAYS**, is a collection of essays published at various times at the beginning of last century, dealing with a variety of subjects in Science, Mathematics, Philosophy and Physics, which demonstrate the extraordinary versatility of this genius.
