

Unexpected Babies

THE TALBOT TWINS A troubled marriage, an unexpected pregnancy, a terrible accident. Any one of those flings would be hard to handle. Cate Talbot Palmer has to face them all. Cate has decided her marriage is over. Much as she loves her husband, she can no longer live with him. But after she tells him she's going and before he can even start to win her back an accident robs her of her memory. Amnesia is frightening: Everyone knows you, but to you, even family members including your identical twin are strangers. You have to trust others for your memories and take too much on faith. Then again, maybe amnesia is the perfect opportunity to start over.
