

Mongolian Cloud Houses: How to Make a Yurt and Live Comfortably

Written for those interested in alternative lifestyles, outdoor living, camping, and do-it-yourself projects, this lively book recounts the authors experiences building his first yurt. Dan Frank Kuehn carefully guides readers through every step of the creation of a 13 diameter, 10 tall model. He covers everything from the poles and lattice that form the basic structure to the pluses and minuses of various materials to the luxuries like solar windows and lofts. The book highlights new building techniques and contains detailed lists of commercial yurt manufacturers, tools, and materials.
