

The Modern House Today

The Modern House Today follows on from F. R. S. Yorke's seminal book of 1934, *The Modern House*, and considers the impact of such influential modern practitioners as Lubetkin, Gropius, Fry, Mendelsohn, Chermayeff, Breur, Hill and Goldfinger on this important form of architecture. The book provides a comprehensive overview of the modern house through a combination of newly commissioned photography and documentary records. The architectural historian Kenneth Powell provides an authoritative and lively commentary to complement the numerous images.
